Jumping the Moon Dairy

is a small, family-owned, Grade 'A' goat dairy in Northern CA that 50 Alpine and La Mancha goats call home. We offer "gently" pasteurized bottled milk and fresh Chèvre and Feta cheese. The does are milked seven days a week, ten months of the year. They are given a break from milking for two months prior to having kids again.

The kids are hand raised so that they are easier to handle and are a welcomed addition to the herd.
