

SENIOR HORSE FEED (BW)

This feed is designed to be used as a source of grain, vitamins and minerals for senior horses.

GUARANTEED ANALYSIS:

Crude Protein.....Min. 14.0 %
Crude Fat.....Min. 5.5 %
Crude Fiber.....Max. 10.0 %
Calcium.....Min. 0.6 % Max. 1.1 %
Phosphorus.....Min. 0.6 %
Copper.....Min. 60 PPM
Selenium...Min. 1.0 PPM Max. 1.25 PPM
Zinc.....Min. 230 PPM
Vitamin A.....Min. 7,500 IU/LB
Vitamin D3.....Min. 2,120 IU/LB
Vitamin E.....Min. 150 IU/LB
Biotin.....Min. 0.9 MG/LB

INGREDIENTS:

Wheat Middlings, Rice Bran, Soybean Hulls, Canola Meal, Ground Corn, Cane Molasses, Corn Distillers Dried Grains with Solubles, Calcium Carbonate, Linseed Meal Mechanically Extracted, Whole Flaxseed-extruded, Hydrated Sodium Calcium Aluminosilicate, Salt, Sodium Selenite, Zinc Sulfate, Vitamin E Supplement, Copper Sulfate, Biotin, Vitamin D3 Supplement, Vitamin A Supplement, Dried Yeast, Dried Egg Product, d-Calcium Pantothenate, Choline Chloride, Ascorbic Acid, Vitamin B12 Supplement, Thiamine Mononitrate, Folic Acid, Riboflavin Supplement, Pyridoxine Hydrochloride, DL- Methionine, Natural and Artificial Flavors Added, Saccharin Sodium, Sodium Bentonite, Freeze Dried Lactobacillus Acidophilus, Dried Aspergillus oryzae Fermentation Extract, Dried Aspergillus Niger Fermentation Product, Dried Bifidobacterium longum fermentation product, Dried Bifidobacterium thermophilum Fermentation Product, Dried Enterococcus faecium Fermentation Product.

FEEDING DIRECTIONS: Feed with forage (hay or pasture or equivalent). Adjust feed amounts based on age, weight, condition and activity. Feed at a rate not to exceed 8 LB per head per day to provide a maximum of 0.3 PPM Selenium per day. Fresh clean water should be available at all times. Horses that have been exercised should be cooled out and re-hydrated properly before being fed and before having access to unlimited water.

REMINDER: Feed is perishable and should be stored in a clean, dry, well-ventilated area so that it will remain fresh and palatable. DO NOT feed moldy, old, or insect-infested feed to animals as it may cause illness, abortion, or death.

DO NOT FEED TO SHEEP.

448567 BW 1506

NET WEIGHT 40 LB (18.14 kg)

EQUI-LUX

Senior Horse

Contains the following features:

- Balanced Vitamin & Mineral Package
- Anti-bodies
- Probiotics
- Prebiotics
- Yucca
- Enzymes
- Yeast Culture
- Live Yeast
- Extruded Flax Seed
- Rice Bran
- Soybean Oil
- Zeolite

Unlike Most Equine Senior Feeds.....

General Expectations:

- Higher energy levels with quieter dispositions
- More resistant to disease
- More efficient digestion
- Increased weight gain on less feed
- Improved hoof health
- Improved coat condition

NOTE: We also recommend

Equi - Lux Ultra Horse Vit/Min Supplement

Contains 20 mg biotin per dose

Equi - Lux Rebound Paste

For Stress situations due to hauling, showing, breeding or digestive disorders.
For new born foals.

12-12 Horse Premix Mineral

For supplementation requiring higher levels of Calcium, Phosphorous, and other essential minerals.

How Equi-Lux Senior Horse Feed is different from other senior feeds:

Equi-Lux Senior Horse Feed is higher in the following ways:

- Energy
- Fat
- Immune System support nutrients
- Selenium
- Copper
- Zinc
- Vitamin A
- Vitamin E

Equi-Lux proprietary technology package of:

- Anti-bodies
- Enzymes
- Probiotics
- Prebiotics
- Yucca
- Yeast
- Chelated Trace Minerals
- Flax seed for improved coat and health

Equi - Lux Senior Horse Feed Contains:

Anti-bodies

- Protect against E-coli
- Protect against salmonella

Probiotics (five strains of Microbials) which:

- Inhibit growth of pathogens
- Improve immune response
- Stimulate appetite
- Improve digestion
 - Less colic
 - Less laminitis
 - Less scouring in foals
- Stimulates lactic acid production
- Synthesize various vitamins
- Detoxifies Ammonia
- Increased calcium absorption

Prebiotics

- Provide nutrient for probiotics
- Inhibits pathogens

Yucca

- Antibacterial agent
- Anti-Inflammatory

- Binds ammonia
- Binds certain toxins
- Promotes growth of beneficial bacteria
- Improved blood circulation

Enzymes

- Amalase improves starch digestion
- Lipase improves fat digestion
- Pectinase improves pectin digestion
- Protease improves protein digestion
- Cellulase improves cellulose digestion
- Phytase improves phosphorous digestion

Yeast Cultures

- Improves digestion
- Promotes beneficial growth
- Enhances fermentation
- Additional source of vitamins
- Stimulates appetite

Live Yeast

- Improves digestion
- Promotes beneficial growth
- Enhances fermentation
- Additional source of vitamins
- Stimulates appetite

Vitamins & Minerals

- The vitamins and minerals in **Equi- Lux** are at the levels, due to the enzyme and probiotic action, which produce maximum performance.
- Aids in building immune systems
- High anti-oxidant vitamins w/selenium

Extruded Flax Seed, Rice Bran, Soybean Oil

- Increased Energy
- Improved coat condition
- Longer sustained exercise capability
- Reduced Inflammation
- Stabilized Flax seed is a source of Omega 3 Fatty Acids

Zeolite

- Microtoxin Binder
- Binds Ammonia
- Improved Calcium Metabolism
